

This is in reply to Bell South's petition to stop regulation of broadband service. This is not acceptable to me as a consumer. Bell South wishes to squash the rest of the competition, saying it isn't likely to impact the market much.

This is not true. The companies which built the Internet itself should not be wiped away and replaced by the large telephone monopolies. I use an independent ISP, and appreciate the very personal service I receive. This service is not possible from a large conglomerate.

Please, say NO to Bell South. Let people have the choice of a large company or an independent. Please assist the independent ISP's by letting them remain competitive.

Thank you for your time.

Sincerely,
Angela Miller
